Air Wireless Network 2.4GHz Wireless Print Server

D-Link, the industry pioneer in networking, continues to offer innovative Ethernet products. The D-Link DP-311U is a wireless print server with one USB port. With its high-speed USB port, the DP-311U allows those on your network to access and share a USB printer wirelessly no matter where they reside on the network.

The DP-311U is equipped with one USB version 1.1 port for seamless connection to most printers available on the market today. The DP-311U also supports all major network Operating Systems and protocols.

The DP-311U is an 802.11b compliant wireless Print Server that supports both infrastructure or Ad-hoc wireless modes. With the DP-

311U you have the ability and convenience of sharing a printer beyond the wired network.

The DP-311U is also easily configurable using a Web Browser or Windows based configuration program. Using Web Browsers on a PC connected to the network, configuration is simple and straightforward with the familiar D-Link interface. PS Admin, a Windows-based configuration program can also be used to configure the DP-311U.

The DP-311U Wireless Print Server is the ideal network printing solution for small offices, home offices, schools and other businesses that require printer sharing.
